NOVELTIES FOR THE JAMES- EXPOSITION.

In discussing a matter of vital interest to the people of the Tidewater section, the esteemed Richmond News Leader says: "So far as there has been objection to a want of sympathy with the proposition for a large federal appropriation for the furtherance of the Jamestown Exposition, the argument has been that the people are tired of expositions. In support of this position the 'sameness' of such affairs has been cited and, positively or negatively, it has been implied that as there could be nothing new connected with the Jamestown venture, the chances are that it would not pay. The Washington Post, however, most effectively discredits this view. 'The proposed Jamestown Exposition,' says our contemporary, 'differs radically in every imaginable respect from the various fairs, &c., which have preceded it. And for these reasons, as the Post sees it, the celebration will be the first of any consequence to be held upon the seashore. The location is ideal, as there is no heated, overcrowded city in the neighborhood, where the patrons will be herded in ragged caravansaries, fed on refrigerated food, compelled to travel long distances in swarming and uncomfortable street cars, and charged exorbitantly for a maximum of discomfort.' Again: 'The exposition is to be situated far out in the midst of a salt water and breezy environment.' * * * If there were nothing else, the visitors would at least have a seaside outing at one of the most desirable points on the Atlantic coast. 'Thousands,' continues the Post, 'treat themselves to that recreation every summer with no extra inducement, so every additional attraction will be that much to the good. They will have ocean prospects and environments—bathing, fishing, sea food, yachting, sailing, &c.—and, besides, the most splendid naval and military pageantry ever witnessed in the world.' We think our contemporary makes out a clear case in favor of the contention that apart from sentimental and historical considerations, the exposition will present attractions—attractions in the way of novelties—that will insure the attendance necessary to its financial success."

No exposition project has received more enthusiastic and widespread newspaper support than the one which is to commemorate the 300th anniversary of the settlement at Jamestown. The full scope and meaning of the enterprise seems to be thoroughly understood and only our own people seem to consider it in the light of the proverbial celebration with its industrial exhibit and its motley aggregation of five and ten-cent side shows. The novelties to be presented at the Jamestown Exposition will have a pulling power which will surprise some of the pessimists who are inclined to be

have that exposition are forerunners to financial failure. One of the novelties we believe will be a handsome dividend on the stock of the company.

QUITE A CHANGE.

The Montgomery (Ala.) Advertiser takes up the cudgel in behalf of the colored people at the North. In commenting on the recent riots at Springfield, O., it says: "They are safe nowhere, it seems, north of the Mason and Dixon line, and are apparently regarded as outlaws, who have no civil rights and are entitled to no protection." In corroboration of this view it is recalled that in Chicago, Philadelphia, other northern and western cities where the negro comes in contact and competition with white labor he has a "hard road to travel." In many of the smaller places he is not allowed to stop even for one night. One of the glaring inconsistencies of the average northerner's attitude on the question is that while he is willing to argue for social equality—in the south, he is not willing to admit even industrial and legal equality of his negro neighbor.

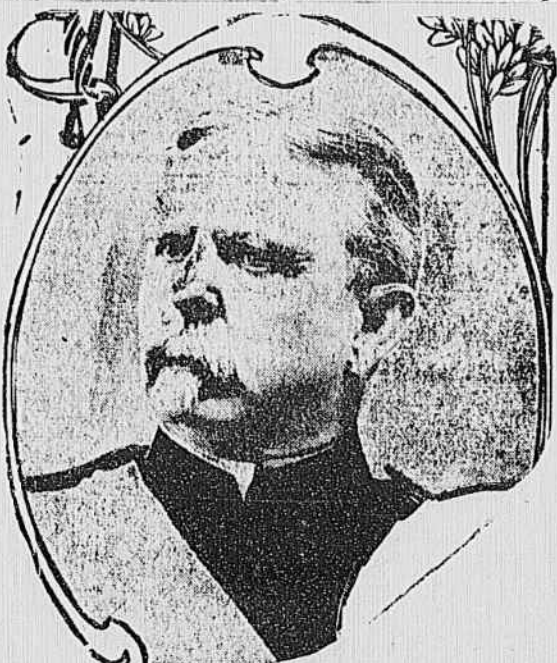

It would be a remarkable change in sentiment if the time should come when the white people of the south should find it necessary to call upon the barbarians of the north to stop their oppression of the negroes.

It is to be hoped that Delegate Houston's efforts to secure Elizabeth City's divorce from Accomac—a step which is right and logical and which in time must be taken—will not make him persona non grata with the voters of the Eastern Shore county. The young Hampton editor has made a good representative for his constituents and should be given a further opportunity to show his mettle in the halls of the legislature.

If the insurance department bill becomes a law it is to be hoped that it will keep clear of the scandals and suspicions which have tarnished its Empire State prototype.

GENERAL H. C. CORBIN.

The General who landed in San Francisco yesterday will undoubtedly be able to give the administration a correct and detailed account of affairs in the Orient, especially conditions in the Philippine Islands and China.

A Woman's Age.

The thanks of her sex are due Minnie Gallard, schoolmarm of Sartara, Tex., for her resistance to an act of oppression. In Recorder Gold's court, threatened with jail if she did not divulge her age, she stood out for the unalienable right of womanhood to keep that secret inviolable. The loss of her head and the snap of her jaws as she defied the efforts of the district attorney to extract the incriminating evidence deserve to go down on record in the annals of freedom along with the firing of the shot heard round the world. When the women of Colorado go to the polls to vote, the highest judicial tribunal in the state cannot force them to tell their age. They are "above twenty-one," and that in law's chivalric view is enough. It is all the marriage license clerk requires to know. On the subject of the age of ladies of title the Almanach de Gotha and Burke's Peerage are discreetly silent, though less considerate of mere princes and dukes. Is not the authority ample? Thus bulwarked by sound legal and social precedents, Miss Gallard stands on unconquerable ground.—New York World.

American Cotton Supreme.

England has been trying to get away from dependence on the American cotton crop. British mill owners fear possible years of failure and suffer from manipulations of American cotton speculators. Much hope has centered upon the attempts to raise cotton in the British possessions in Africa. After a thorough trial they have practically failed. The five colonies where cotton can be grown would not be capable of producing more than of

10,000 Rounds of Ammunition and Many Guns Are Found Secreted on Board of a Ship Due to Sail For the Orient—Chinese Emperor Ill.

(By Associated Press.)
SAN FRANCISCO, CAL., March 8.—The steamer Korea, which arrived this morning from the Orient, brought General Corbin, returning from duty in the Philippines.

The Examiner today says: "Twenty-two modern rifles and 10,000 rounds of ammunition were seized yesterday in the quarters of the Chinese crew on the Pacific Mail steamer Manchuria, scheduled to sail for the Orient this afternoon. A thorough search of the vessel resulted in two more boxes of rifles being found in the room of one of the assistant engineers."

Chinese educational institutions in the neighborhood of Hongkong and Canton are teaching boycott to the children, according to advices via the Korea.

Emperor of China Ill.

PEKIN, March 8.—The Emperor of China, Tsai-Tien, is ill. Telegrams have been dispatched to all the viceroys asking them to send their best physicians to Peking. The physicians at the palace here say that the Emperor's illness is serious, but not alarming.

At the Musical.

"Swans sing before they die," muttered the critic.
"Well, what of it?" asked his friend.
"I suppose, though," went on the critic, resignedly, "it would be too much to expect that because Miss Screamers is not a swan, she'd die before she'd sing."

James City and York County Stock Raisers Object to Rigid Rules Now Enforced by State Against Texas Fever—200 Acres Sold for \$7,000.

(Special to the Daily Press.)
WILLIAMSBURG, VA., March 8.—The funeral of Isaac Johnson, who was killed while at work on the branch line of the Chesapeake & Ohio being built between Tanno and Glascock, took place here yesterday afternoon. His head was crushed between the engine and one of the cars. He was formerly engaged in the mercantile business here.

Farmers' Complaint.

Dr. J. W. Fernyough, of the Virginia Experimental Station at Blacksburg, was here yesterday, having come to confer with stock raisers concerning the cattle quarantine that exists in James City and York counties. These two are the only counties on the Peninsula that are under quarantine and the farmers claim that it works a great hardship upon them.

Dr. Fernyough addressed the farmers at the courthouse, advising them to appoint inspectors and endeavor to get rid of the tick that causes Texas fever. He promised to return next summer and arrange so that cattle, properly inspected and in nowise infected with the disease, may be shipped to market.

TORTURED BY ITCHING ECZEMA

Suffered Tremendous Itching Over Whole Body—Scratched Until Bled—Worse at Night, With Soreness and Excruciating Pains—A Western Lady's

WONDERFUL CURE BY CUTICURA REMEDIES

"Last year at this time I suffered with a tremendous itching on my back, which grew worse and worse, until it spread over the whole body, and only my face and hands were free. For four months or so I suffered the tortures of the damned, and I had to scratch, scratch, scratch, until I bled. At night when I went to bed things got worse, and I had at times to get up and scratch my body all over, until I was as sore as could be, and until I suffered excruciating pains. I did not know what it was, and resorted to a number of blood purifiers, using at times also Cuticura Soap. They told me then that I was suffering from eczema. Then I made up my mind that I would also use Cuticura Ointment and Cuticura Resolvent. I used them according to instructions, and very soon indeed I was greatly relieved. I continued until well, and now I am ready to recommend the Cuticura Remedies to any one who suffers as did your obedient servant. Mrs. Mary Metzger, Sweetwater, Okla., June 28, 1905."

TORTURING, DISFIGURING Humors, Eczemas, and Itchings Cured by Cuticura

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalled head—all demand a remedy of almost superhuman virtues to successfully cope with them.
